Cigarette companies want to make smoking cigarettes look glamorous. What they do not advertise is what happens to your body when you smoke.

Instructions: Below in the word box are myths and misconceptions about smoking and the long-term effects of smoking. Group them according to which team they belong.

TEAM SMOKING  VS  TEAM NO SMOKING
Did you know that there are laws in some countries that ban public area smoking?

One common law that we may see every day is that restaurants are not allowed to seat smokers with non-smokers, there must be separated if a person wishes to smoke.

**REMEMBER** the smoke affects non-smokers as well.

As human beings, we all have rights. Smokers and non-smokers alike.

Can you think of any two rights a non-smoker has?

................................................................................................................................................................
................................................................................................................................................................
................................................................................................................................................................

Give two reasons why you think smoking is not popular or socially accepted.
